

ULTRASONIC HUMIDIFIER

Ultrasonic humidifiers offers an efficient, clean solution, with very low running costs.

Advantages of ultrasonic humidifiers

93% energy savings compared to steam

- Safe and clean
- Immediate response and rapid evaporation
- Uses clean water
- Virtually maintenance free
- On / off or proportional control
- Plug and play, no extensive site wiring

Special Features

- Independent Humidification System
- Lowest energy consumption in its category.
- No condensation due to very fine water particle size.
- Easy to install
- No Structural modifications required.
- Metal body and stainless
- Water storage tank up to 5 hours
- 4 fog outputs
- **Advanced series:**
 - ✓ Monitoring and PLC controller
 - ✓ Having clock and calendar for daily, monthly and annually control.
 - ✓ Automated diagnosis

Model	Power input	Capacity	Use area	Weight(Kg)	Machine size
CM75	400 w	3 L	20-50 m2	30	85*40*41
CM150	700 w	6 L	50-100	33	85*40*41
CM220	1000 w	9 L	100-150	36	85*40*41
CM290	1300 w	12 L	150-200	55	85*40*80
CM360	1600 w	15 L	200-250	50	85*40*80
